Amendments to the Claims

This listing of claims will replace all prior versions and listings, of claims in the application:

Listing of Claims:

- 1. (Previously Presented) An absorbent device for insertion into a vaginal cavity, said absorbent device comprising an overwrap and an absorbent structure, the overwrap comprising an upper portion and a lower portion, said overwrap comprised of dissimilar materials such that said upper portion comprising a liquid permeable material selected from the group consisting of open mesh webs, polymeric nets, and apertured films and said lower portion comprising a liquid impermeable material selected from the group consisting of thin films and coated fabrics, said upper and lower portions joined to form a container for said absorbent material, said lower portion contacting walls of said vaginal cavity and said absorbent structure comprising absorbent material.
- 2. (Original) An absorbent device of claim 1, wherein said absorbent material comprises a fibrous material.
- 3. (Original) An absorbent device of claim 2, wherein said fibrous, absorbent material comprises a binding agent.
 - 4. (Original) An absorbent device of claim 3, wherein said binding agent is water soluble.
- 5. (Original) An absorbent device of claim 1, wherein said absorbent material is bondable fiber.
- 6. (Original) An absorbent device of claim 5, wherein said bondable fiber comprises cellulosic fibers.
- 7. (Original) An absorbent device of claim 6, wherein said cellulosic fibers comprise multi-limbed regenerated cellulosic fibers.

- 8. (Original) An absorbent device of claim 6, wherein said cellulosic fibers comprise nonlimbed cellulosic fibers.
- 9. (Original) An absorbent device of claim 6, wherein said cellulosic fibers comprise a mixture of multi-limbed regenerated cellulosic fiber and non-limbed regenerated cellulosic fiber.
- 10. (Previously Presented) An absorbent device of claim 2, wherein said fibrous material is compressed.
- 11. (Original) An absorbent means of claim 1, wherein said absorbent material comprises a pledget.
- 12. (Original) An absorbent means of claim 1, wherein said absorbent material comprises a plurality of compressed tablets.
- 13. (Original) An absorbent device of claim 1, wherein said absorbent material comprises foam.
- 14. (Original) An absorbent device of claim 1, wherein said upper portion comprises a non-woven material.
- 15. (Original) An absorbent device of claim 1, wherein said upper portion comprises an apertured film.
- 16. (Original) An absorbent device of claim 1, wherein said lower portion comprises a film.
- 17. (Original) An absorbent device of claim 16, wherein said film is selected from the group consisting of polyethylene, polypropylene, rubber, elastomers and combinations thereof.

- 18. (Original) An absorbent device of claim 16, wherein said lower portion comprises a bottom portion and a sidewall.
- 19. (Original) An absorbent device of claim 18, wherein said bottom portion is thicker than said sidewall.
- 20. (Previously Presented) An absorbent device of claim 18, wherein said bottom portion has extending therefrom a body withdrawal mechanism.
 - 21. (Original) An absorbent device of claim 1, further comprising a withdrawal string.
- 22. (Original) An absorbent device of claim 21, wherein a withdrawal string is attached to said bottom portion.
- 23. (Original) An absorbent device of claim 1, wherein said upper portion and said lower portion are joined at a junction, said junction formed by thermobonding.
- 24. (Currently Amended) An absorbent device of claim 1, further comprising a strengthening ring, said ring capable of opening said lower portion.
- 25. (Original) An absorbent device for insertion into a vaginal cavity, the absorbent device comprising an absorbent structure contained within an overwrap, the overwrap comprising a liquid permeable upper portion and a liquid impermeable lower portion, the absorbent structure comprising aggregate absorbent material.
- 26. (Original) An absorbent device of claim 25, wherein the upper portion comprises a non-woven material.
- 27. (Original) An absorbent device of claim 25, wherein the lower portion comprises a film.

- 28. (Original) An absorbent device of claim 25, wherein the upper portion comprises an apertured film.
- 29. (Original) An absorbent device of claim 25, wherein the absorbent material comprises fibers.
